INDEX.

ABDOMINAL section for peritonitis, 148, 212.
Abdominal wall abscess, 213.
Abdominat walls, Neoplasms of, 220.
Actinomycosis of the brain, Trephining for, 134.
Actinomycosis of the chest and lung, 211.
Air passages, Foreign bodies in, 369.
Aneurism, Cure by inducing white thrombi in the sack, 48.
Aneurism, Innominate, Treated by simultaneous distalligation of the right common carotid and right subclavian arteries, 336.
Antiseptic surgery, Present position of, 1.
Appendicitis, Chronic relapsing, Resection of the appendix vermiformis during the quiescent stage, 356, 362.
——— Indications for early laparotomy in, 233, 255.
——— Operative technique of, 264, 276.
——— Pathology of, 225.
——— Surgical treatment of, 59.

BACTERIA, Relation of, To inflammation, 179.
Bardenheuer's Guide to the Treatment of Fractures and Dislocations of the Extremities by Means of Extension, Review of, 479.
BELL, J., Operation for complete prolapse of the rectum, after the manner recommended by Dr. J. B. Roberts, 333.
Brachial artery, Rupture of, Complicating elbow joint dislocation, Results of, 144.
Brain and spinal cord, Horsley on the surgery of, 194.
Brain, Operations for the removal of tumors of, 207.
Brain tumor, Case of, 104.

CAROTID ARTERY, Right common, Distalligation of, Simultaneously with right subclavian, 336.
Cholecystotomy, Case of, 152.
Cranial Surgery, 194, 199, 207, 434.
CRILE, G. W., Cases of fractures with fatal termination, 373.

DA COSTA'S Medical Diagnosis, Review of, 80.
DEAVER, J. B., Operative treatment of head injuries, 434.

ENTERORRHAPHY, Circular, by a new method, 81.
Elbow joint, Dislocation, Complicated with rupture of brachial artery, Result of, 144.
Elephantiasis of the clitoris, 222.

FEMUR, Acute periostitis of, in children, 443.
Flat foot, Painful, 73.
Foreign bodies lodged in the body, 369.
FOWLER, G. R., Contra-indications to immediate suturing of fractures of the patella, 31.
——— The operative technique of appendicitis, 276.
Fractures with fatal termination, Cases of, 373.

GASSERIAN ganglion, Excision of, 132.
Gastroenterostomy, Cases of, 220.
Graham's Treatise on Massage, Review of, 476.

HÆMARTHROSIS of the knee-joint, Conservative treatment of, 114.
HAYNES, F. L., Instances of foreign bodies lodged in the body, 369.
Head injuries, Operative treatment of, 434.
Hernia gangrenous, Treatment, 160.
—— Incarcerated, 219.
—— Kolischer's method of radical cure, 214.
—— Macewen's operations for radical cure, 156.
(Hernia) Obturator, 217.
Herniotomy complicated with gangrene of the intestines, 159.
Hygroma proliferans endothelialis, Case of, 142.

ILEUS, Treatment of, 220.
Infection, Surgical, 187.
Inflammation, Pathology of, 161.
Innominate aneurism treatment by simultaneous distalligation of the right common carotid and right subclavian arteries, 336.
Intestinel stricture from carcinoma, Operations for, 154.
Intestine, Gangrene of, Complicating herniotomy, 159.
Intra-peritoneal wounds, The prevention of adhesions from, 71.

JACOBSON, M., Case of brain tumor, 104.
Jaw, Lower, Operation for relief of ankylosis of, 129.
Jobert's Operation, A new method of doing, 426.

KEEN, W. W., Indications for early laparotomy in appendicitis, 255.
—— New operation for spasmodic wry-neck, 44.
Knee-joint, Conservative treatment of hæmarthrosis of, 114.
—— Wound of, with transverse divisions of patella, 145.
Knee resections in adults for tuberculosis, Results of, 120.
Kocher's treatment of old dislocations of the shoulder-joint, 123.

LARYNX, Recent Russian contributions to the surgery of, 63.
Liver, Excision of sarcoma from, 151.

MALARIA and surgical operations, 130.
Mammary cancer, Etiology of, 70.
MAYLARD, A. E., On sponges and their use in surgery, 321.
MCBURNEY, C., The indications for early laparotomy in appendicitis, 233.
MOULIN, C. M., The germ theory of syphilis from a clinical point of view, 417.
MYNTER, H., Case of partial excision of sternum for sarcoma, 96.
—— On the pathology of appendicitis, 225.
Mucous membrane, transplantation of, 127.
Mütter Lectures on surgical pathology by Dr. R. Park, 161, 284, 378, 445.

OBTURATOR HERNIA, 217.
Œsophagotomy for removal of impacted foreign body, 100.
OWEN, E., Note on acute periostitis of femur in children, 443.

PARK, ROSWELL, Lectures on surgical pathology, 16, 284, 378, 445.
Patella, Contra-indications to immediate suturing of fracture of, 31.
—— Transverse division of, with incised wound of knee-joint, 145.

Peritoneal cavity inundated by fæces, Recovery after abdominal section, 212.
Peritonitis, Starting from vermiform appendix, Surgical treatment of, 59.
—— Treated by abdominal section, 148, 212.
—— Tubercular, Surgical treatment of, 146.
Plastic operations, 128.
PRICE, J., The propriety of, and indications for, The resection of the appendix vermiformis during the quiescent stages of chronic relapsing appendicitis, 356.
Prostate, Enlarged, Operations on, 134.
Prostatectomy, Lateral, 140.
Prostatomy and prostatectomy, Indications for their performance, 136.
Pyogenic Organisms, 378.

RECTUM, Relief of prolapse after the method of J. B. Roberts, 333.
Rectum, Prolapse of, 218.
Robert's Manual of Modern Surgery, Review of, 74.
ROBINSON, F. B., A new method of doing Jobert's operation, 426.
—— Circular enterorrhaphy by a new method, 81.

SHEPHERD'S Retrospect of Surgery, Review of, 79.
Shoulder-joint, Kocher's treatment of old dislocations of, 123.
Spina bifida, Successful operation for, 143.
Sponge, Sterilized, Use of, in wounds with abundant secretions, 130.
Sponges and their use in surgery, 321.
Sternum, Partial excision of, for sarcoma, 96.
Stilling on Aniline Dyes as Antiseptics. Review of, 319.
STIMSON, L. A., Technique of operations for the relief of appendicitis, 264.
Stomach, Contributions to the Surgery of, 214.
Subclavian artery, distal ligation of, Simultaneously with right common carotid, 336.
Suppuration and wound infection, 284.
Syphilis, Germ theory of, 417.

TETANUS, Surgical prophylaxis, 131.
Thorburn on the Surgery of the Spinal Cord, Review of, 315.
Tillman's Text-Book of Regional Surgery, Review of, 478.
Trephining for cranial injuries, 454.
Tubercular peritonitis, Surgical treatment of, 146.
Tuberculosis of knee, Results of resection in Adults, 120.

UMBILICAL RING, Minute changes in the formation of, 153.

VAGINA, Congenital absence of, 223.
Vermiform appendix, Surgical treatment ment of peritonitis starting from, 59.
Vesico vaginal fistula, Operation for, 128, 222.

WEIR, R. F., On the resection of the appendix vermiformis during the quiescent stage of chronic relapsing appendicitis, 362.
WIGHT, J. S., Case of Œsophagotomy for removal of impacted foreign body, 100.
WHITE, J. W., Present position of antiseptic surgery, 1.
WINSLOW, R., Simultaneous distal ligation of right common carotid and right subclavian arteries for supposed innominate aneurism, 336.
Wound infection and suppuration, 284.
Wound infection, Results of the absorption of the products of, 445.
Wounds intra peritoneal, Prevention of adhesions from, 71.
Wounds with abundant secretions treated by sterilized sponge, 130.
Wry-neck, New operation for spasmodic, 44.
